

DOMU PIETURA - HOME WINERY, TOUR, TASTING, PURCHASE OF WINES

In honour of the work of the legendary winemaker Kārlis Dumbrājs (1918–2019) and the traditions of winemaking that he nurtured for more than 60 years, the company is now run by the next generations: "We make around 20 various wines from wild and garden berries. Our clients praise our wild berry wines, like the rich and smooth blueberry wine, the aromatic raspberry wine, the classic cranberry wine, as well as other wines, including those made from quince, rowanberry, rhubarb, plum, blackcurrant, redcurrant, cherry, gooseberry, even the wine made of grapes growing in our garden. However, winemaking is a very seasonal, creative and sometimes also unpredictable process, not always all wines are available for tasting and purchase at the same time".
